

Fostering Fremont's Economy

About Us

Fremont is the epicenter of advanced manufacturing, boasting over 45,000 manufacturing jobs and leading companies from the semiconductor, biomedical, autotech, cleantech, and electronics industries. We are proud to cultivate a business-friendly environment where innovation thrives.

Our mission is to foster business activity and investments in Fremont that lead to a higher quality of life for our residents by facilitating the creation of good jobs, a thriving environment for businesses of all sizes, and a financially healthy government to support City services.

Business Development, Site Selection, & Permitting Facilitation

We are dedicated to helping you navigate the challenges of launching a new business or expanding an existing one, regardless of its size. Whether you need help finding the ideal commercial space or understanding permit procedures, we are here to support you.

Events, Districts, & Marketing

We support our growing Downtown district, host industry events to showcase our advanced industries, and drive many marketing initiatives, including Fremont Restaurant Week and our **"Shop Small" video series!**

Workforce Development & Regional Partnerships

We partner with local educators to coordinate discussions and support STEM education and growth, while also connecting businesses with talent through initiatives like Fremont Manufacturing Week, Earn and Learn, Tesla's Introduce a Girl to Engineering Day, and the Engineering Expo.
